

## APPENDIX 'A'

### Exterior Security Screen Doors

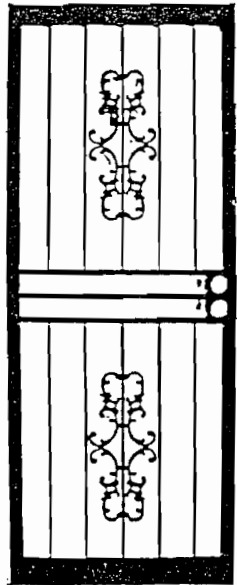

The following APPENDIX 'A' Exterior Security Screen Door styles have been prior approved by the Wildcat Ridge Homeowners Association and the HOA's Architectural Committee. Any homeowner of the Wildcat Ridge subdivision may install any of the approved exterior security screen door styles indicated within this appendix with out gaining prior approval from the Wildcat Ridge HOA's Architectural Committee as long as they are installed under the following conditions.

1. The exterior security screen door must be one of the approved styles.
2. The color of the exterior security screen doorframe must match the frame color of the existing front door frame.
3. The color of the exterior security screen door must match the color of the existing front door.
4. The screen material must:
  - a. Match the existing front door color
  - b. Must have any open screen area of no less then 65%

A homeowner how plans on installing a exterior security screen door which does not match on of the approved styles of this Appendix, or plans on installing a screen door that does not adhere to the requirements of this Appendix. Must then submit for prior architectural approval the exterior security screen door they are planning on using prior to ordering and installing the screen door.
